Re: P. I. & I MOTOR EXPRESS, INC.
DOT No: 122443

Dear Sir:

It has been 6 months since I wrote you about P. I. & I. Motor Express, Inc., 908 Broadway Ave., Masury, Ohio 44438. I thought you would have given them a safety survey by this time, but nothing as of yet. They have a very poor "out of service" rating and now they are buying many other carriers which helps their percentage, only because of the number of trucks they now run.

I still work for them and should quit, but can't get a decent job elsewhere. I really think they are now skimming off the top on the FUEL SURCHARGE as they pay the lowest of anyone around. This is to be a pass thru, but I don't think it is totally passed.

They have a monopoly on the freight as they operate as a BROKER, do the billing and then pay the carriers who pull loads thru them. I also am quite sure there is some pay off to some of their major shippers for giving them all their freight.

I hear many of the truckers in the area bitch about the situation, but none seem to do anything about it. I hope it is possible that someone from your department can check them out as it would be good for all concerned.

I am sorry not to sign this letter, but am sure they would fire me if they found out.

Thank you for your attention to this matter.

Copy of letter to US. DOT

Sincerely,
Mr. Concerned
